Registration Number Lookup Tool

	A	B	C
1	PPRS Registration Number Lookup for Yukon		
2			
3	Use this tool to lookup an ACOL PPRS registration number for a pre-transition Yukon PPSR registration number (registration date plus a number from 1 to 99999).		
4	The ACOL PPRS registration number is comprised of a two-digit prefix number plus the 1 to 99999 portion of the pre-transition Yukon PPSR number. Numbers less than five digits are padded with zeros. For example: a lookup on "2014-01-30 <u>321</u> " would yield " <u>8200321</u> ".		
5	Enter the pre-transition registration number:		
6	Date:	1989-02-15	YYYY-MM-DD
7	Number:	80000	1 to 99999
8			
9	Date and number within a valid range?	YES	If NO, re-enter the date and number. Ensure that the date is in the format of YYYY-MM-DD.
10			
11	ACOL PPRS registration number prefix:	16	
12			
13	ACOL PPRS registration number:	1680000	* See note below.
14			
15	* Note: The ACOL PPRS registration number reported above may not correspond to an actual pre-transition Yukon registration. This tool calculates the registration number by determining the two-digit prefix for the pre-transition date and five-digit number provided. It is possible to specify a date and number that fall within a valid range but which were not ever assigned to a Yukon PPSR registration.		
16			

Exercise 4 - Amend a Registration

Exercise 5 - Serial Number Search

- Alphabetic and numeric characters only
 - Leave out hyphens and spaces
 - Enter “ABC 134-456” as “ABC123456”
- Do not enter the collateral type when searching
 - Search will return all matches regardless of collateral type
- Search matches visually similar letters and numbers
 - For example: L and I = 1, Z = 2, ...
- Last six characters are the most important
 - Yukon differs from the other ACOL PPRS jurisdictions where last eight characters are the most important
- Pre-transition registrations of boats and outboard motors are not searchable via serial number search

Exercise 5 - Serial Number Search

Exercise 6

- Individual Debtor Name Search

- Phonetic matching for close matches
- Search without middle name will not match a name with middle name
 - Criteria JOHN PUBLIC will not match JOHN QUINCY PUBLIC
- Search with middle name will not match a name without middle name
 - Criteria JOHN QUINCY PUBLIC will not match JOHN PUBLIC
- Extra close matching for pre-transition names only
 - Same match list as for pre-transition Yukon PPSR
 - Marked as “[YT]” in Search Result Reports
- Extra close matching applies only for Yukon

Searching the Personal Property Registry

Clients who have been given access to the PPR to perform searches and registrations are responsible for knowing and using accurate legal names for individuals and enterprises defined by the Personal Property Security Act (PPSA) and PPSA General Regulations. Ability of the system to assist searchers by returning close matches for individual and enterprise names should in no way be taken as excusing registrants or searchers from complying with the precise requirements of the PPSA and the General Regulations.
